In every case the Trust aims to achieve sustainable, life-improving results from its support. Details of projects the trust has supported are in its annual reports and accounts. The trustees have deliberately kept the award parameters wide to remain open to a variety of projects, including some at the more innovative end of the spectrum. Some themes are emerging such as a consistent focus on children and young people, and supporting people with either physical or mental health challenges.</p> <p>Up to 6 grants are given per funding round.</p>		The Trustees generally meet twice a year.
Lush Charity Pot	<p>Through its Charity Pot and Carbon Tax, Lush offers grants and funding to small, grassroots charities and campaign groups that are often best placed to make a real difference with limited resources and who often struggle to find funding. It supports organisations around the world that are working in the areas of animal protection, the environment, and human rights.</p> <p>Almost all the groups funded have annual incomes of less than £250,000 and most are substantially smaller than this and run entirely or predominantly by volunteers. If your organisation has many supporters and corporate sponsors, or is able to secure mainstream funding such as government grants, you're probably not suitable for this funding.</p> <p>Lush believes it can make the most impact by funding causes that are often overlooked by other funders, therefore it gives priority to less popular issues which are more difficult to raise funds for. The most popular causes tend to be health charities (medical research, hospices etc), social welfare, religious causes, children/ young people and military related causes, so these aren't a priority for Lush. It is looking for organisations that take on issues that others don't, so those that push the boundaries and challenge mainstream opinion.</p>	£100 - £10,000, with an average grant of around £4,000.	Ongoing

The Foundation works together with these organisations to see lives and communities transformed through support, education and care.</p>		

<u>Rayne Foundation</u>	<p>The Rayne Foundation makes grants to charitable and not-for-profit organisations across the UK tackling a variety of social issues. As an independent funder, an important part of its role is to support work which is untried, tests new approaches but has clear objectives. It favours work which could change the way issues are tackled in society and which could have lessons for others beyond the funded organisation. It will consider applications in the fields of arts, health and wellbeing, education in its widest sense, and those that cover social issues. Its focus is to connect communities, building bridges between marginalised groups and mainstream society, and to enable individuals to reach their full potential. Within these broad criteria, it has a number of areas of special interest:</p> <ul style="list-style-type: none"> • Young people's improved mental health • Arts as a tool to achieve social change • Improved quality of life for carers and for older people <p>The Foundation particularly welcomes applications addressing these issues but will consider applications in other subjects which meet its broader criteria. It prefers to fund alongside others as it is unlikely to be able to fund your project in full. It will also consider the size of your request relative to your overall turnover. Small, newer organisations in particular are unlikely to receive a larger grant if that would equate to more than 10% of total income, unless it is towards an organisation's first paid post.</p>	<p>Typically £10,000 - £20,000 per annum for up to three years</p>	<p>2 stage application process. Apply at any time.</p>
<u>Co-operative Membership Community Fund</u>	<p>To apply to be a Co-op cause, you must have a project or event in mind that:</p> <ul style="list-style-type: none"> • takes place in the UK or Isle of Man • doesn't have religious or political aims (although you can still apply if you're a religious organisation) • meets the Co-op's values • benefits your local community <p>Preference is given to projects run by small, local organisations.</p>		<p>Applications to be considered for 27.10.19 – 24.10.20. Recipients must be registered charities, but the trustees have complete discretion as to the type of charitable work supported. In recent years there has been some concentration on support for charities working with children or young people and those active in the environment and the arts. There has also been a preference for applications from and for Scotland but not to the exclusion of applications from elsewhere.</p>		<p>Applications are considered by the trustees each quarter in January, April, July and October.</p>

Trusthouse Charitable Foundation	<p>This is a medium-sized grant making foundation giving grants to small, well-established organisations in the UK who address local issues in areas of urban deprivation, or rural issues. Within these overarching themes, the Foundation is interested in two areas:</p> <ul style="list-style-type: none"> • Community Support • Arts, Education and Heritage <p>NB: for all capital projects in the Major Grants programme, you will need to have secured a minimum of 50% of the total cost of the project for which you are applying. The Foundation will not consider applications if you have not reached this target. For Small Grants, it will not fund more than 50% of the total cost of the project and will not pay a grant until you have secured the remaining 50% of the cost.</p>	<p>Small grants £2,000 - £7,500</p> <p>Major grants Single year £7,500 - £20,000</p> <p>Multi-year (max 3 years) £7,500 - £20,000 per year</p> <p>One-off capital costs £7,500 - £60,000</p>	<p>Ongoing</p> <p>Next Major Grants meeting: October 2019.</p>

The Foundation only supports programmes and projects that occur within and benefit communities that support the John Lewis business. The current focus of the Foundation is to invest in disadvantaged communities that support the John Lewis business to acquire the relevant skills required for meaningful employment.</p> <p>In the UK, the Foundation only gives grants to groups and organisations that are registered with the appropriate Charity Commission, or where the grant is for an exclusively charitable purpose. Organisations that have 'exempt' or 'excepted' status, such as educational establishments, qualify under these criteria.</p> <p>In line with the compulsory carrier bag charges, all proceeds from single use carrier bags are donated to the John Lewis Foundation and are distributed to charitable works in England and Scotland.</p>		<p>There are no deadlines for applications. The Trustees meet quarterly to review and approve applications</p>
Wessex Youth Trust	<p>The focus of this trust is to help, support and advance registered charities which provide opportunities specifically for children and young people up to 21 years old. The Trust's primary aim is to assist other registered charities and charitable causes, in particular those with which The Earl and Countess of Wessex have personal connections or interests. Preferential consideration is given to appeals received from self-help organisations and to charities requiring support to 'prime the pumps' for development and more extensive fund-raising initiatives. Also, specific project funding requests are preferred to more general 'pot-filling'.</p>		<p>The Trustees are reviewing their grants procedure and are not currently accepting grant applications. <u>Garfield Weston Foundation</u>	<p>The Garfield Weston Foundation supports a broad range of organisations of all sizes across the UK that share a commitment to making a positive impact to the lives of the communities in which they work, and that are driven by a desire to achieve excellence. It awards grants to registered charities, Charitable Incorporated Organisations and groups with ‘exempt’ status, in the following categories: Arts, Youth, Community, Faith, Education, Health, Environment, Museums & Heritage and Welfare.</p> <p>The Trustees have a preference for charities directly delivering services and activities to those in need, and are especially keen to see applications from charities in the Welfare, Youth and Community sectors and also in regions of economic disadvantage.</p> <p>Almost 2000 charities across the UK benefit each year from grants made by the Foundation, ranging from small community and volunteer projects to large national organisations. Despite this range, the common theme is that charities demonstrate they are meeting a need effectively with clear outcomes and benefits, good leadership, sensible business plans and a commitment to excellence.</p> <p>The types of grant made, whatever their size, tend to fall into one of three categories – Capital (i.e. buildings and equipment), Revenue (often called ‘core costs’) and Project work. The most important thing is that you apply for <i>what you need most</i> as this will be your priority and therefore the most compelling for the Foundation’s Trustees.</p> <p>How much can you apply for? This depends on a number of factors including how much you need to raise, the scale of your project and how much your organisation has raised already. If you are applying for core costs/revenue funding, the Foundation tends not to support more than 10% - 20% of an organisation’s total annual income (depending on their size). With Capital projects it tends to consider grants around 10% of the total cost and expect an organisation to have raised around half the funding required before applying to it.</p> <p>The Foundation encourages organisations to develop a sustainable funding base so that they are not overly reliant on one funder. Its Trustees therefore will consider a grant <i>towards</i> your costs but are unlikely to fund the total costs of a project or a large proportion of your total expenditure.</p> <p>Major Grants If you are considering applying for a Major Grant (£100,000 and over), start by sending a one page summary outlining what you are raising funds for, the total cost and fundraising target. The Foundation’s staff can then give you bespoke guidance on whether you are eligible and what any next steps may be. Please note if you are applying for £100,000 or more it typically expects your project and/or annual income to be in excess of £1 million. Please do not apply for a Major Grant through the website.</p>	<p>Regular grants: £1,000 - £100,000</p> <p>Major grants: over £100,000</p>	<p>There are no deadlines, so applications are accepted all year round.</p>

<u>Tudor Trust</u>	<p>The Tudor Trust makes grants to voluntary and community groups working in any part of the UK. It particularly wants to help smaller, community-led organisations that work directly with people who are at the margins of society: organisations that support positive changes in people's lives and in their communities. Tudor's trustees are also particularly interested in supporting smaller, under-resourced organisations. Most of the organisations it supports have an income of less than £500,000.</p> <p>Because it tries to respond to the needs identified by organisations themselves, many of its grants take the form of core funding: funding which goes towards the core costs of running an organisation, including salaries, overheads and day-to-day running costs. Sometimes it may offer unrestricted funding, through a grant which can be used entirely freely to further an organisation's charitable aims. It can also provide project grants, capital grants for buildings or equipment and grants to help strengthen an organisation.</p>	<p>There are no maximum or minimum amounts, although grants are rarely less than £10,000.</p>	<p>Rolling programme – no deadlines. 2 stage application process.</p>
<u>Dulverton Trust</u>	<p>The Dulverton Trust supports registered charities, preferably medium sized charities with annual income of £200,000 - £10 million, and where a Trust grant can make a difference. Its priority areas include Youth Opportunities (largest category), General Welfare, Conservation, and Preservation.</p> <p>NB Newly established charities (usually founded within the last eighteen months) and preservation charities are exempt from the minimum income rule.</p>	<p>Single year grants are normally in the range of £25,000 - £35,000, although the amount requested should be the amount you need ie the cost of the project or activity, less funds already received or pledged.</p>	<p>Applications are accepted all year round with the trustees meeting in February, June and October.</p>
<u>The Hedley Foundation</u>	<p>The Hedley Foundation's principal aim is '<i>to effect change for the better in the lives of young people</i>'. The Foundation makes grants to small UK registered charities working with young people (11 – 25) in the areas of Recreation, Sport, Training, Health and Welfare, Support and Outdoor Education. The Foundation is particularly keen on open air and adventure-type activities and the funding of appropriate kit and equipment. The Foundation is keen to support small charities which can demonstrate achievement in persuading and deterring at-risk young people from proceeding further down the pathway to custody. A secondary aim is to assist small charities helping with disabled and terminally ill young people through funding for specialist equipment, organised respite breaks and holidays. The Foundation also supports young carers. The Foundation provides limited bursary type funding to organisations which provide apprenticeships and specialist training for talented young people who, for want of money alone, are unable to develop their talents.</p>	<p>Recent awards have generally been approximately £3,000.</p>	<p>The trustees meet 6 times annually.</p>

<u>Woodroffe Benton Foundation</u>	<p>The Foundation provides grants to officially recognised charitable organisations within the UK, only in respect of:</p> <ul style="list-style-type: none"> • Relief of persons in need, hardship or distress by reason of disaster or as a consequence of social or economic circumstance. • Provision/Maintenance of care and accommodation for the sick and elderly. • Promotion of education - in particular within the Derbyshire region. • Environmental Conservation/Preservation/Protection/Improvement - in particular where this would encourage the provision of access by members of the general public. <p>The Trustees prefer to support smaller charities since modest donations are capable of providing potentially greater benefit in such cases. Consequently, it is unlikely that organisations with an annual income in excess of £1million will be provided with a grant under the small grants programme.</p> <p>It is the trustees' present policy to assist smaller organisations with core costs.</p>	<p>SMALL GRANTS: £500 - £2,500</p>	<p>The deadline for applications is usually 6 weeks before the Trustees quarterly meetings in January, April, July and October.</p>

Foundation Scotland distributes funds on behalf of companies, individuals and charitable trusts.</p> <p>Annual income of applicant organisations in the most recent financial year, for most of the grant making programmes, must usually be less than £250,000. The Foundation sets a limit on a group's income so it can target its funding at smaller, community-based groups which often do not have the capacity to attract large amounts of funding from other sources.</p>
