How to make an apple bird feeder

What you will need:
- Sturdy straightish sticks x 2
- Scissors
- An Apple
- Seeds
- String

1. Push a knitting needle into the apple
2. Stick in the seeds so that when you pull on the needle, the seeds will fall out of the apple
3. String the apple through the needle
4. String the needle through the sticks and tie the ends of the string tightly
