

Locations

Railway Fields
Local Nature Reserve N4

The Paddock
Community Nature Park N17

Your School

We can also lead assemblies and learning sessions in your school grounds or local park! Get in touch to discuss options for your class.

SEND groups

We can adapt sessions for children with special educational needs. Please inform us of any additional needs in advance, so that we can ensure a brilliant experience for everyone.

Visit us for free!

Railway Fields and the Paddock are open Monday-Friday for self-led visits. Just let us know if you're planning on coming!

Book Now

Outdoor Learning with us

TCV believes that every child should have the opportunity to participate in regular, sustained and inspiring outdoor learning. Nature is amazing and our education sessions offer a taste of this for kids living in Haringey.

We offer engaging and fun outdoor learning for EYFS, Key stages 1 & 2.

Activities are usually designed around the National Curriculum. Sessions could include scavenger hunts, wildlife surveys, stories, songs, arts & crafts and team games, as well as pond dipping and minibeast hunts.

EYFS

With younger groups we focus on exploring, working together and having fun in nature! Children will use their senses to discover plants and animals through the seasons by observing colour, shape, pattern and texture.

Statutory Framework: Understanding the world; Physical development; Personal, social & emotional development; Communication & language skills

KS1 & 2

At KS1 & 2 students learn about the wild world around them by exploring natural habitats. We identify a range of species by describing their characteristics, behaviours and their basic needs for survival.

Focus can be given to investigating adaptations, life cycles, food chains, the environment, sustainability and many other topics - just let us know when booking.

Curriculum Links (Science): Animals, including humans; Plants; Seasonal changes; Living things and their habitats; Working scientifically; Evolution and inheritance

Curriculum Links (Geography): (Geography Skills and Fieldwork, Human and Physical Geography)

All sessions are created alongside TCV **Health & Safety** and **Safeguarding** procedures including activity risk assessments which can be provided on request.
